CH ABDULLAH

SOFTWARE ENGINEER

SUMMARY

Software Engineering graduate from IBADAT International University with strong communication skills and a customer-focused mindset. Experienced Full Stack Developer specializing in the MERN stack, with proven ability to design and deploy end-to-end web applications. Skilled in React for building responsive frontends, Node.js/Express for backend services, and MongoDB for efficient database management. Adept at problem-solving in collaborative, fast-paced environments. Additionally, freelance WordPress Developer with hands-on experience in creating and customizing websites, optimizing performance, and delivering polished solutions tailored to client needs. Combines technical expertise with adaptability and a passion for delivering scalable, user-centric digital products.
